Algebra can essentially be considered as doing computations similar to those of arithmetic but with non-numerical mathematical objects. However, until the 19th century, algebra consisted essentially of the theory of equations. For example, the fundamental theorem of algebra belongs to the theory of equations and is not, nowadays, considered as belonging to algebra (in fact, every proof must use ...

There are two myths which are deeply imprinted in the minds of most US Americans which are extremely dangerous and which can result in a war with Russia. The first myth is the myth of US military superiority. The second myth is the myth of US invulnerability. I believe that it is therefore crucial ...
