Uncovering Student Ideas in Science is a wonderful resource that provides valuable quick assessment to what students understand about given concepts before instruction begins. In addition to providing ready-made assessments, the model used also allows teachers to create their own assessments for concepts not addressed.

Uncovering Student Ideas in Science - NSTA Learning Center

Uncovering Student Ideas in Science: Volumes 1-4. This book, the second volume in the NSTA Press USI series includes 25 formative assessment probes that can be used across multiple grade spans, as well as pre-service teacher education and teacher professional development in life, physical, earth, and space sciences.
