Frequently asked questions area available to help the public better understand the climate system and how climate patterns in far off places affect our weather patterns.

CPC - Climate Weather Linkage: El NiÑ±o Southern Oscillation

Bureau of Meteorology web homepage provides the Australian community with access to weather forecasts, severe weather warnings, observations, flood information, marine and high seas forecasts and climate information. Products include weather charts, satellite photos, radar pictures and climate maps. The Bureau also has responsibility for compiling and providing comprehensive water information ...

Australia's official weather - Bureau of Meteorology

Recent weather events such as deadly heat waves and devastating floods have sparked popular interest in understanding the role of global warming in driving extreme weather.

Climate Communication | Overview

Some meteorological processes are too small-scale or too complex to be explicitly included in numerical

weather prediction models. Parameterization is a procedure for representing these processes by relating them to variables on the scales that the model resolves. For example, the gridboxes in weather and climate models have sides that are between 5 kilometers (3 mi) and 300 kilometers (200 mi ...

Numerical weather prediction - Wikipedia

The climate of the planet Mars has been a topic of scientific curiosity for centuries, in part because it is the only terrestrial planet whose surface can be directly observed in detail from the Earth with help from a telescope.. Although Mars is smaller than the Earth, at 11% of Earth's mass, and 50% farther from the Sun than the Earth, its climate has important similarities, such as the ...

EPA sets national air quality standards for six common air pollutants. Each year EPA tracks the levels of these air pollutants in the air. EPA posts the results of our analyses to this web site.

National Air Quality: Status and Trends of Key Air

Northern Bering Sea Climate Resilience 9 December 2016 The focus of this EO is arctic environmental stewardship. It is the policy of the United States to enhance the resilience of the northern Bering Sea region by conserving the region's ecosystem, including those natural resources that provide important cultural and subsistence value and services to the people of the region.
