Announcing the Standard for Personal Identity Verification

A check verification service provides businesses or individuals with either the ability to check the validity of the actual check or draft being presented, or the ability to verify the history of the account holder, or both.. There are a number of different methods that can be used to provide the service, these include checking different databases with negative or account history, checking ...

Check verification service - Wikipedia

Verification and validation are independent procedures that are used together for checking that a product, service, or system meets requirements and specifications and that it fulfills its intended purpose. These are critical components of a quality management system such as ISO 9000.The words "verification" and "validation" are sometimes preceded with "independent", indicating that the ...
