1. Mental Stimulation. Studies have shown that staying mentally stimulated can slow the progress of (or possibly even prevent) Alzheimer's and Dementia, [1] since keeping your brain active and engaged prevents it from losing power. Just like any other muscle in the body, the brain requires exercise to keep it strong and healthy, so the phrase "use it or lose it" is particularly apt when ...

5. Summary: Elaborate usability tests are a waste of resources. The best results come from testing no more than 5 users and running as many small tests as you can afford. Some people think that usability is very costly and complex and that user tests should be reserved for the rare web design project with a huge budget and a lavish time schedule.

Why, specifically, did you "have to" rename the Active Directory? Having your AD forest name match your public-facing domain name is not remotely "required," and it seems like a minimal/non-existent problem that "some other organization" might end up buying "yourdomain.local" and cause DNS issues.

## Why you shouldn't use .local in your Active Directory

Dr Brown, I haven't been listening to your program for very long but have enjoyed what little I have been able to catch. I have read this article about why the Jewish people are hated and though we will never know everything that creates this anger towards the Jewish people, it is always good to continue researching this topic.
